

Study abroad

markelAH.com

Markel offers colleges, universities, and secondary schools a comprehensive and cost-effective study abroad insurance plan for students studying in a foreign country. The coverage is sold on a blanket basis to the school and is “excess” protection; premium costs may be passed on to students. Markel’s modular approach allows for customization of each policy, which can include accident and sickness, trip cancellation, personal property, and/or general liability benefits.

Product coverage features

- Accident and sickness
- Trip cancellation (refunds tuition and fees)
- General liability (to protect the policyholder from liability resulting from the actions of students)
- Personal effects (reimburses students for lost or stolen luggage)
- Travel assistance included
- Medical evacuation and repatriation (if medically necessary) included

Availability

- Colleges and universities; including liberal arts, religious-affiliated, and/or public institutions
- Groups with a minimum of 10 participants annually
- Available in most jurisdictions (48 states and the District of Columbia)
- Available as a “stand-alone” product
