What is loss control

Loss control is directed towards the prevention, reduction, or elimination of losses. Markel can assist you in addressing these concerns by helping you identify conditions, develop action plans to help mitigate loss potential, and transfer knowledge to assist in better understanding issues that lead to claims. Loss control helps create a safe and sustainable working environment for customers and employees, and assists in reducing business expenses through use of industry safety standards and best practices.

No-cost resources available to you from Markel
